The AutoSeal[®] FD 2200 Series High Volume Folder/Sea designed to handle the highest volume jobs with ease and dependability. The FD 2200 Series offers fully automated settings to provide for quick and easy setup of different jobs. Processing speeds of up to 40,000 forms per hour sets the industry standard for speed and production capabilities. Three cut-sheet models are available in the FD 2200 Series that offer different in-feed options: the FD 2200 utilizes an air-feed system with a capacity of up to 500 forms, the FD 2200-EX offers an extended air-feed system to reach a capacity of up to 1,000 forms and the FD 2250 utilizes a pile feed system to reach a total capacity of up to 3,500 loaded forms.

All three models produce fast and accurate folds to deliver a secure and time-effective finished product ready for the mail. The FD 2200 Series clearly sets the new standard for high volume processing needs.

Flexible

The FD 2200 Series can handle a variety of documents up to 11.5" wide 25" long including, checks, invoices, school reports, tax forms, appointment notices, PIN notices and a variety of direct marketing possibilities. In addition, the FD 2200 Series utilizes up to four fold plates to offer flexibility both folding and in the output sequence of processed forms.

Powerful

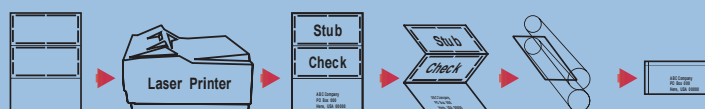

The FD 2200 Series can process forms at a rate of up to 40,000 documents hour and can hold between 500 to 3,500 forms depending on the model. The FD 2200 Series can handle even the highest volume jobs on a mon basis.

Control Panel

Pressure Seal Solution

The AutoSeal FD 2200 Series combined with a laser printer and pressure seal forms create the ultimate high-volume secure, time saving and efficient solution for paper processing.

Standard "Z" Fold Process

Ease of Operation

The FD 2200 Series delivers state-of-the-art automated features to make changes quick and accurate. A variety of different jobs can be programmed and stored into memory. Fold plate adjustments and other functions are completely automated for one-touch operation.

Specifications:

Hopper Capacity:	AS 2200 - 500 Sheets 24# (90gsm) AS 2200-EX - 1,000 Sheets 24# (90gsm) AS 2250 - 3,500 Sheets 24# (90gsm)
Variable Speed:	Up to 40,000 sheets per hour – based on 11" Z-Fold (279mm)
Paper Size:	Up to 11.5"W x 25"L (216 W x 432 L mm)
Power:	208V, three phase, 20 Amp** (Special 3 Phase Power Required)
Duty Cycle:	Unlimited
Dimensions:	152"L x 30"W x 56"H (138" L w/ conveyor ext. closed) (117 L x 51 W x 112 H cm)
Weight:	Approx. 1,200 lbs (45 kg)
Delivery Requirements:	Customer supplied automated pallet jack or fork lift is required for installation and setup**
Certifications:	UL applied for

U.S. Patents 5,772,841 , 5,865,925 & 5,968,308 Other Patents Pending

* Capacity of up to 3,500 non-windowed forms. Forms with a traditional patch window are better suited for the FD 2200 and FD 2200-f

** Three phase power is required as well as a customer supplied automated pallet jack or fork lift for installation.
